

CleanEquity Monaco 2013 - Announcing Companies, Plenary Sessions & Speakers

CleanEquity Monaco, 6th – 8th March, the preeminent global forum which provides the opportunity for emerging cleantech companies of all nationalities to present to specialist financial investors, corporate venturers, policy makers, end users and international & trade media, hosted by Innovator Capital, is delighted to announce a new collaboration with Kwittken & Company.

Kwittken is a public relations and marketing company, with a focus on corporate and business communications across the technology, automotive and B2B sectors. They have a proven track record in helping companies such as HaloIPT, Geothermal Engineering and BMW achieve their goals.

Plenary Session Working Titles at CleanEquity Monaco 2013:

1. Cleantech 2.0 - Fundamentals for the cleantech renaissance.
2. Hydrogen - Have the Germans got it right?
3. Big data – Big Energy Efficiency Opportunities & Big Transformations
4. What do China's leadership change and President Obama's inaugural ambitions mean for cleantech?

We welcome also the following speakers:

Peter Head (C.B.E) - Executive Chairman Ecological Sequestration Trust. Peter joined Arup in 2004 where he created and lead their planning and integrated urbanism team. The Guardian named him one of 50 people who could *"save the planet"* and he was cited in Time magazine as one of 30 global *"eco hero's"*.

Dirk Schlesinger - Senior Director and Global Manufacturing Lead of the CISCO Internet Business Solutions Group. He was previously Vice President and Partner of the Boston Consulting Group and has extensive knowledge in the areas of business process reengineering, asset development and productivity improvement as well as post-merger integration.

John Leggate (C.B.E) - Founding Partner at Quintal Partners. John is Senior Adviser to VantagePoint and a member of the CleanTech Advisory Council. Formerly CIO at BP, John played a key role in developing corporate policy on technology foresight, global environmental performance and sustainability.
